Company Profile Report

Cost – \$549 / Report

OMDCnet® Scout™, our custom research service, offers the *Company Profile Report* to assist those interested in finding company information and strategic intelligence on U.S. and international firms.

The *Company Profile Report* provides international reports on both large and small firms, going beyond services of providers that limit their information to the largest public or private U.S.-based companies. It was developed

to fill a void between high-end, in-depth comprehensive reports costing in excess of \$1000 and simple, low-end business profiles covering the most rudimentary data.

Each report is compiled from multiple primary and secondary sources, including proprietary and premium fee-based databases, and delivered as an Adobe PDF file to your e-mail address within five business days of our receipt of your order and payment confirmation.

Features of the *Company Profile Report*:

- Legal name of business
- Address information, including phone and fax
- Contact information
- Company officers
- Business description
- Brief history
- Products sold
- Number of employees
- Estimated sales
- Year founded
- Business trend
- Competitors
- Press releases
- Company news and articles
- Financial information (when available)
- Public filings (U.S. only)

Benefits of the *Company Profile Report*:

- Helps companies to evaluate leads by providing a snapshot of the target prospect
- Provides information to assess the overall strength of international firms seeking to represent or purchase your products
- Provides background information to prepare an informed strategy for business negotiations
- Assures getting the most up-to-date information on your target company
- Prepared by information research professionals who know global business
- Can help protect your company from a fraudulent transaction by verifying the existence of and data on a particular firm prior to ordering or shipping merchandise
- Provides early guidance in conducting due diligence
- Prepared in a concise standardized format to help C-level executives get the information they need in a time-sensitive manner
