

# OMDCnet®

A Global Trade and International Business Information Portal

## Locate Sources of Supply from the United States

Cost – Starts at \$3,000 plus travel expenses

OMDCnet®Members and VIP Subscriber Discounts Apply

OMDCnet® Global Trade Portal offers importers, global retailers, global sourcing agents, and international sales representatives a product sourcing service covering the U.S. Market. If you are looking to source products for re-

sale, OEM applications, licensing, or distribution and are looking for U.S.-based manufacturers, OMDCnet® can provide you with a wide range of services to meet your needs.

Depending on the level of service you require, OMDCnet® can help you:

### **Locate Sources of Production in the U.S.**

- Finding manufacturing production sources
- Qualifying manufacturing production sources
- Negotiating a sourcing contract with a U.S.-based supplier
- Coordinating the preparation of samples according to your specifications
- Recommending U.S.-based freight and shipping companies
- Providing a list of U.S. manufacturers matching your specific sourcing needs
- Providing additional U.S.-based support services according to your requirements
- Acting as a liaison in the U.S. between your company and the American manufacturer

### **Locate Made in U.S.A. Products for License or Resale**

- Finding products that are unique for resale in foreign markets
- Finding products that can be manufactured under license in foreign markets
- Finding products that offer the best potential in foreign markets
- Finding unique products that are not easily copied by low-cost production locales
- Finding promising new products
- Arranging for samples to be produced and sent
